>> BBQ

Built at the Arcadia shipyard in 2017, Arcadia100 is a modern-style motor yacht for sale built to RINA classification. Constructed under the direct supervision of her owner and his collaborators, she offers an incredible amount of natural light. Her general design is drawn by Francesco Guida.

Immaculately maintained; designed with a convertible sun deck, which can be electronically opened to the elements or remain fully enclosed. One of the major key features onboard is the two balconies that extend the deck space, therefore offering an elevated view out over the water. she would suit an experienced owner looking for an eco-conscious cruising performance; as well as a much larger volume vessel than a similar yacht in this size range.

The wide and minimalist interior, with a subtle Italian influence, includes solid woods and laminates. she offers so much natural daylight that she could be the ideal yacht for 365 days of use in total comfort and space. On the accommodation side, she can welcome 10 guests in five staterooms. An impressive Owner's Suite, an exceptionally large VIP that can be converted to form two doubles; as well as two twin staterooms.

"As a company, since 2008 we have been actively and professionally providing second-hand services. If you are unable to spot the boat you are looking for in our lists, please feel free to contact us for alternatives and our off market boats."
