## Description

The Wally WHY150, launched in 2023 and measuring just over 24 meters, is a groundbreaking motor yacht that delivers an astounding 150 gross tonnes of internal volume. The design prioritizes light, space, and connectivity: a forward main-deck master suite boasts wraparound floor-to-ceiling glazing offering a panoramic 270° “amphitheatre of the sea” view. The main saloon steps up to an impressive 2.5 m headroom and features flush decking that merges indoor living with the cockpit and immediate sea access. Outdoors, a capacious sundeck is outfitted with a bar, dining area, grill, and fridges. In essence, the Wally WHY150 is not just a yacht, it’s a floating architectural statement, challenging conventional yacht design by blending expansive luxury, avant-garde aesthetics, and exceptional performance into a compact 24-metre form.

### Key Features:

- Equipped with Electrical Converter suitable for European waters
- Enrolled in a highly profitable charter program – immediate income potential post-sale
- Fully loaded with every factory option – no compromises, no corners cut.
- Master suite on main deck with 270° wraparound glass – stunning panoramic views
- Gyro and fin stabilizers – outstanding comfort both at anchor and underway
- Engine warranty valid through March 3, 2027 – with optional 3-year extension
- Factory warranty valid through March 3, 2026
- Massive volume (150GT) – the feel of a 95–105-footer in just 78 feet
- Architectural design – iconic Wally styling, futuristic and bold
- Premium Miami Marina slip – transferable to the next owner
- Ready to sell now – rare opportunity for a fast-moving, design-forward buyer
