| Location       | PENANG, MALAYSIA      | Builder      | AZIMUT                   |

## Description

The Dell II Azimut has undergone extensive upgrades and meticulous maintenance to ensure optimal performance and presentation. Both engines received brand-new original Caterpillar ECUs in 2024 and 2025, along with new ZF gearbox and Caterpillar turbo on the port side. The engine room features new blowers and Caterpillar alternators for both engines, while recent servicing included replacement of original Caterpillar oil, fuel, and air filters. In April 2025, all seacocks were upgraded to durable brass types, and both cutlass bearings were replaced. Aesthetically, the yacht has been refreshed with newly reupholstered outdoor cushions, a new Sunbrella Bimini and covers, and professional polishing carried out every six months to maintain her pristine shine.

### Key Features:

- Elegant teak cockpit flooring
- Convenient cockpit shower for rinsing after swims
- Davit system for easy tender handling
- Hydraulic gangway for effortless boarding
- Comfortable cockpit cushions for lounging
- Stainless steel swimming ladder for safe water access
