Price:	US\$1,690,000	Cabins:	4		
Condition:	Used	Berths:	8		

Description

This spacious never chartered Ferretti 731 is not only in superb condition but has the best layout - imminently practical and usable. 4 ensuited cabins accommodating 8 guests plus crew cabin with bathroom, stylish interiors, great teak throughout on main deck.

Couple it with a mere 955 engine hours, the highest of specs including 2 gyro stabilizers / 2 generators / bow thruster / stern thruster / tropical strength aircon / extra control in the cockpit / watermaker / crane - and you have a recipe for an excellent yacht.

The master cabin is breathtaking with enormous full height windows which provide an infinity pool effect where the sea is your pool. Spacious decks and light-filled interiors. Looked after by a full time crew she is in turn key condition and ready to cruise. This Ferretti 731 is one of the best used yachts we've seen anywhere (not just in the Philippines) and represents excellent value after her price improvement.

Recent works include -

Manufacturer Provided Description

The Ferretti 731 is the new expression of the Ferretti style: a highly innovative project born from a revolutionary concept of both outside and inside spaces. Starting from the unusual symmetric perspective of the spaces which dominates both the interior and the flying bridge layout. The ship owner's cabin presents the most important innovations of Ferretti in terms of light and space solution: it has a large panoramic window on both sides allowing an open view of the sea also from the spacious semicircular shower, separated from the bathroom by a sliding door. The huge and comfortable living room and dining area have been designed following the symmetric layout of the boat, with a central position of the TV, double access at the bow area, and centralized pilot house, to make life on board even better and to enhance the brightness of the interiors. The external layout permits a more generous living area on the rear deck with an opening spoiler bench which offers its guests a comfortable experience to live the sea in absolute tranquillity.

Additional Description

- Anti Rolling Gyro Mitsubishi (2) MSM-2000 and MSM-4000
- Bow thruster (20HP)
- Bimini top (electrohydraulic)
- Third control station in cockpit
- Stern thruster (15-20HP)
- Electric cooking top on the fly

Additional Description

Salon

- Cabinet for TV and glasses accomodation
- Cooler with drawer 75lt 24V
