Description

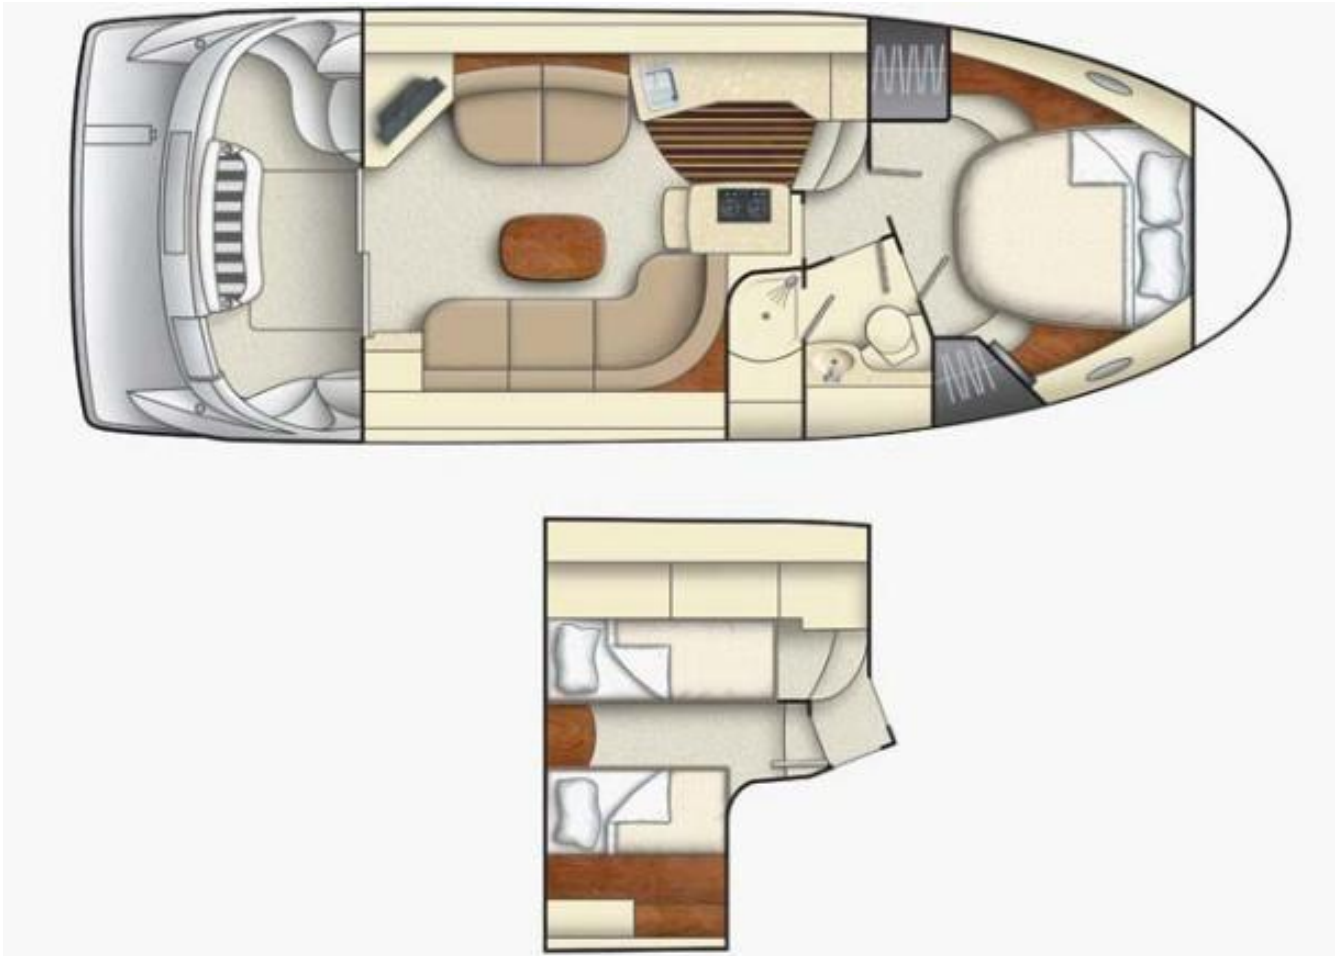

Presenting the Meridian 341 Sedan, a timeless flybridge yacht that effortlessly combines ease of handling with ample space for a family of four. Meticulously cared for by attentive owners, this vessel has been diligently maintained and serviced, making it a rare gem in the South-East Asian market, especially as one of the few Meridians equipped with reliable diesel engines.

This yacht comes fully equipped with an array of premium features, including Northstar GPS, stereo system, fish finder, depth finder, bow and stern thrusters, electrical windlass, and a macerator pump for overboard discharge. A generous swim platform further enhances its functionality, perfect for water activities or relaxing in comfort.

The interior received a tasteful refurbishment in 2022, introducing light-toned woodwork that brightens the cabin and adds a modern touch. Seating upholstered in high-quality vegan leather provides renewed comfort, while new carpets enhance the saloon's warmth and elegance. Additional upgrades include new teak on the swim platform, cockpit, and flybridge stairs, blending style with practicality.

Whether you're looking for a starter yacht or a family weekend getaway, this turn-key classic is ready for your adventures. Registered in Singapore with taxes fully paid, it comes complete with a full set of safety equipment compliant with SZ registration.
