Location	LANGKAWI, MALAYSIA	Builder	BRUCE ROBERTS AND GLASSCRAFT MARINE

## Description

Presenting a well-maintained 1996 Simpson Inspiration catamaran, currently located in Langkawi, Malaysia. With an overall length of 34.38ft (10.48m) and an impressive 6.0m beam, this vessel offers exceptional stability, generous deck space, and a comfortable onboard living experience—making her ideal for both private cruising and charter opportunities.

Designed for extended offshore sailing, this catamaran has been thoughtfully upgraded to support self-sufficient living at sea. She is equipped with solar panels, a lithium battery system, generator, air-conditioning, and a watermaker, allowing for long-range cruising with minimal reliance on marina facilities. These features make her especially suitable for island hopping, liveaboard lifestyles, or long-distance voyages.

The interior layout includes three well-appointed cabins, one bathroom, and a spacious saloon area that can comfortably accommodate up to eight guests. The wide beam enhances interior volume, creating a bright and airy environment for relaxation and socialising onboard.

Powered by twin Yanmar engines, the vessel delivers reliable and efficient performance, ideal for coastal cruising and exploring nearby islands at a comfortable pace.

This is a turnkey opportunity to own a fully equipped cruising catamaran, ready for immediate use. A practical yet elegant choice for those seeking freedom, comfort, and independence on the water.
