Description

The Fairline Squadron 50 is a yacht that embodies sophistication, blending sleek exterior lines with a commanding flybridge presence. Measuring just over 51 feet, its deep-V fiberglass hull is designed for stability and efficiency, ensuring smooth journeys across coastal waters or open seas. The expansive flybridge is a highlight, offering a second helm, generous seating, a dining table, and a wet bar — the perfect setting for entertaining guests or enjoying panoramic views.

Step inside and you are welcomed by a bright, contemporary saloon with premium finishes, mood lighting, and large panoramic windows that flood the space with natural light. The galley is thoughtfully integrated, providing seamless access to dining and lounging areas. Every detail has been carefully considered, from the teak flooring and designer décor to the practical layout that enhances both comfort and functionality.

On deck, features such as the bathing platform, transom shower, and stainless-steel fittings reflect Fairline's commitment to quality and convenience. Advanced navigation systems, bow thruster, and joystick controls ensure effortless handling, while safety equipment and robust construction provide peace of mind.

The Squadron 50 is more than a yacht — it is a statement of style and modern luxury, perfectly suited for those who wish to explore Hong Kong waters with confidence and elegance.
